Franco Canova: Ideas Creations Inventions

TOKI - TC2 BROADENS ITS LINE OF TECHNICAL AND APPLICATION PROPOSALS

It is ideas, new ideas, the true force that helps companies to develop and grow, bringing in fresh blood and, thanks to new products, allows them to acquire new technologies and conquer new markets.

Tecnidea Cidue is an absolutely innovative company that throughout its long life has continuously been implementing its production line, adding new articles and allowing it to broaden its offer for the world of mechanical engineering and construction. During the month of September 2022 **Tecnidea Cidue s.r.l.** is renovating its vocation with a line of innovative products **TOKI**, that thanks to the proposed range it will give a big contribution to the world of machinery construction.

TOKI is illustrated in a specific catalogue called **VOLUME 3**.

Products are divided into **3 groups** to better present the single items, highlighting their technical and dimensional specifications as indicated in the following.

FIRST group: Conveyor components.

SECOND group: Levelling components.

THIRD group: Bearing supports.

VOLUME 3 was conceived with such rationality that it allows designers, engineering and salesmen to quickly find all of the technical information they need.

Support base (tripod) - Part. D00 and DX00
Base di sostegno (a tre braccia) - Part. D00 e DX00

MATERIALS: Base made of reinforced polyamide black colour; threaded bushing made of nickel plated brass; fixing bolts and nuts made of stainless steel AISI 304 or zinc plated steel.
FEATURES: Max tightening torque 3,6 Kg.m.

MATERIALI: Base in poliammide rinforzata colore nero; boccole filettate in ottone nichelato; bulloneria di serraggio in acciaio inox AISI 304 o acciaio zincato.
CARATTERISTICHE: Coppia massima di serraggio 3,6 Kg.m.

MATERIALS: Reinforced polyamide black colour.
ACCESSORIES: Anti-slip pads - code: CP007632; material: thermoplastic rubber 68 Shore black colour.

MATERIALE BASE: Poliammide rinforzata colore nero.
ACCESSORI: Antivibranti - Codice: CP007632; materiale: gomma termoplastica 68 Shore colore nero.

The products on our catalogue are many, the production line is wide and exclusive to satisfy the most demanding requirements.

TOKI is a great component's catalogue, it is indeed an extremely useful tool to design and manufacture machines and plants.

Corner disc 32 teeth (for chains series 879BO, 879BO Tab, 880BO, 880BO Tab) - Part. Q59
Ruota di traino dentata per Z32 (per catene serie 879BO, 879BO Tab, 880BO, 880BO Tab) - Part. Q59

MATERIALS: Wheel and external cap made of reinforced polyamide black colour; bushing in brass; stop ring and self-threading screws in stainless steel AISI 304.

MATERIALI: Ruota e coperchio esterno in poliammide rinforzata colore nero; boccia in ottone; anello di arresto e viti autofilettanti in acciaio inox AISI 304.

With **TOKI** everything becomes so simple to the point that in some cases even working finally becomes fun.

TECNIDEA CIDUE S.r.l. SELF-ALIGNING BEARING SUPPORTS **TOKI**

TOKI products are not just functional, robust and practical, they are also esthetically pleasing to the eye. **The reason being that the design was attentively taken care of.**

In the **FIRST group** "Conveyor components" the following articles are offered as follows:

- 1: Support bases,
- 2: Guide rail brackets / support heads,
- 3: Knobs and handles,
- 4: Guide rail clamps,
- 5: Guide rails,
- 6: Roller for chain return / idler wheels,
- 7: Bearing holder flange,
- 8: Split shaft collars,
- 9: Modular transfer plates / Guides,
- 10: Guides and accessories,
- 11: Guide profiles and accessories

In the **SECOND group** "Levelling components" the following articles are proposed as follows:

- 12: Threaded bushings for tubes,
- 13: fixed feet / articulated feet/ adjustable feet,
- 14: Sanitizable feet

In the **THIRD group** "Bearing supports" the following articles are proposed as follows:

- 15: Wide range of self-aligning bearing supports, in different shapes: square, oval and side flanged.

COMPONENTI PER TRASPORTATORI

COMPONENTI DI SOSTEGNO E LIVELLAMENTO

SUPPORTI AUTOALLINEANTI

TC2

All of these products are manufactured with the highest quality standard and taken care of in every single aspect. Our quality level is **granted** by the **DNV** quality certification awarded to us following the rules **ISO 9001:2000**.

In any case we also invite our readers to read our catalogues: **VOLUME 1** and **VOLUME 2** where you can get to know the wide range of technical items in our production range.
